Square Foot Gardening

Are you tired of weeding your garden? What if your garden used 20% of the space and 10% of the water of a conventional garden? This SAME garden uses 5% of the seed, requires 2% of the work and produces 5 TIMES the harvest! Impossible, you say? Square Foot Gardening can do all of this! Join us for a 1 hour presentation followed by a question and answer session to learn more about this innovative raised-bed gardening method—ideal for those with physical limitations or living in an urban setting and makes a great family project. The Square Foot Gardening method is user friendly, so it is perfect for beginners to gardening! This presentation will provide valuable information to homeschool parents, formal educators and those assisting the elderly.

For more information or to register, contact Trinity Farms Market at 419-886-4854, or Trinityfarms@aol.com.

This is a FREE workshop.
